The course helped me to understand the main concepts in this subject area.

The course helped me to understand the relationships among these main concepts.

The course helped me to understand how concepts presented in this course relate to those in other biosciences courses.

The course helped me to understand the relevance of this particular subject to real-world issues or everyday life.

This course helped to develop my ability to think through a problem and solve it.

This course compared favorably to others I have taken in the biosciences.

The exams and assignments were well designed to test the knowledge I was expected to gain in this course.

I appreciate this subject better as a result of taking this course.

This course stimulated my desire to take additional courses in this subject area.

I understand the scientific process better as a result of taking this course.

Overall, I would recommend this course to other students.

The instructor was enthusiastic about the subject.
The instructor stimulated my interest.
The instructor defined course objectives, expectations, and requirements clearly.
The instructor explained the relationships among concepts/course topics.
Class meetings were well planned and organized.
Regardless of the grade I received, I learned a lot from this instructor.
This instructor's methods for evaluating student performance (e.g. assignments and grading techniques) were well designed a
The instructor was available for consultation in the form of emails, questions after class, and office hours.
Overall, this instructor was an effective teacher.
